

#AK13404V

1:10 Stadium Truck Crosslink (Super Soft) mit roter Einlage

1/10 Stadium Truck (Super Soft)

The CROSSLINK features a symmetrical open tread pattern designed to break in quickly and provide unparalleled forward traction. This additional forward traction is perfect for today's high powered 1:10 Stadium Trucks and allows a more aggressive steering setup without the worry of losing on-power control. The CROSSLINK has been designed for hard packed or blue groove, indoor and outdoor tracks. Available in championship winning Clay, Ultra Soft and Super Soft compounds as tires with Red inserts. As with all AKA tires, proudly designed and made in the USA.

Included:

One Pair of Tires and Inserts
- Clay Compound
