

LRP S18 Touring Car Factory Team

LRP is proud to release the new factory team edition of the successful LRP S18.TC touring car platform.

The LRP R&D team has designed a competition 1/18th scale micro car that is tailored for pure racing. The car has been optimised in every small detail from the successful S18 Touring Car.

All attention has been concentrated in pure performance of handling, durability and an easy car to work on. LRP has raised the bar in micro touring car design, performance and high-quality. The Factory Team Edition features a new refined ultra-smooth and efficient drivetrain, new long carbon plate top-deck design and carbon plate chassis that is up to 58% lighter than previous plastic chassis, resulting in perfect flex characteristics for higher-traction and precision controlled handling. The oil filled threaded shocks in combination with the anti roll bars front and rear provide driving performance on highest level giving a big advantage against all competitors.

#110201

FEATURES
