Whether at home in your living room, in the office, garden, parking lot or on the race track, everywhere is a good hunting ground for the SHARK-18 Race Monster Truck.

The new Race Monster Truck is based on the popular LRP SHARK-18 Buggy and offers great features previously only available on 1/8 and 1/10 models: 4WD shaft all-wheel drive, pivot ball front suspension, 4-spider differential, fully equipped with low-friction ball bearings and much more. It's a real alternative to the large 1/8 Nitro Monster Trucks - the SHARK-18 Race Monster Truck really has teeth - and not only during the winter months!
