

LRP LiPo 1/10 Competition Car Line Short SubC Hardcase 4700 - 110C/55C - 7.4V

The Blue power Short SubC for 2WD offroad racing!

European Champion TC Modified, European Champion 1/10 4WD Buggy, ETS Champion, winner of the E-Buggy class at the Neo Race as well as many national onroad and offroad championships in only one season – the record of success of the LRP LiPo Competition Car Line batteries is more than impressive. The capacity and power output of the new batteries has been further optimised. Racers can benefit from this stand-alone battery line.

Materials and cells are perfectly adapted to the different requirements. The 2S 7500 and the 2S 6000 are the ideal duo for 1/10 racing. The 7500 is designed for maximum runtime, while the 6000 is the 1/10 TC tip: the same power than the 7500 but 40g less weight! In combination with a rating of up to 110C/55C there's nothing left to be desired regarding toughest competition racing.

#430214

A special 1S 6600 LiPo pack for 1/12 drivers, an optimised Saddle Pack for 4WD offroad racing, a short SubC battery as well as 2S high-power all-round-LiPos top the line off. Especially for the tough demands in 1/8 models, there's the 2S 5700 pack.

Complying with the rules of the following federations: IFMAR / EFRA / DMC / BRCA / pending ROAR approval

FEATURES

- Up to 110C/55C LiPo power: No memory effect, extremely long lifetime
- 3C Charge current
- HDS-2 - Advanced High Density Stacking technology: Even higher voltage due to improved separator materials
- Tested according to latest UN test standards
- LRP quality approved
- 4mm gold coated connectors: For lowest contact resistance
- 2mm gold coated balancing connector
- Durable, see-through, hardcase made of high-quality synthetic material

TECHNISCHE DATEN

- Weight 220g
- C-rate 110C/55C
- Style Short SubC
- Dimensions 97x47x25.1mm
- Capacity 4700
- Voltage rating 7.4V - 2S
- Balancing connector 2mm gold connector
- Connector 4mm gold connector
- Application 1/10 Offroad Competition
