Vector k7 Brushless Motor - 10.5T

World Champion genes at a budget price!

The Vector K7 is the ultimate power motor at a pocket money price. With this motor, LRP offers World Champion technology for hobby drivers for the first time ever.

Maximum power and longest durability are the attributes of the K7 that incorporates the genes of the Vector X20 World Champion motor. No matter, if touring car, buggy, truggy, monster truck or short course truck – this brushless motor gives that extra power plus to every 1/10 scale R/C car. Due to the LRP PreciSensor system, the motor features smoother response characteristics.

Other top features like oversized ball bearings, dismountable aluminium motor housing, innovative HDS technology and of course the high-power sintered magnet make the Vector K7 the unreachable price-performance winner.

The Vector K7 comes with the wires (with 4mm connectors) already soldered onto the solder posts.

FEATURES

- Aluminium motor housing: Efficient motor cooling and optimised design
- Handwound
- Easysolder design: Heavy copper, multilayer PCB for lowest resistance
- Oversized ball bearings: For highest performance and durability
- PreciSensor System: Revolutionary precise sensor postitioning for maximum power, best throttle response and highest efficiency
- Dismountable: Fully dismountable for cleaning and tuning
- Standard 540-size + weight
- HDS technology: High Density Stack for highest power output
- High-power sintered magnet: High-strength sintered magnet for maximum performance
- Can be operated with sensored and sensorless speed controls

TECHNISCHE DATEN

- RPM 26.640
- Shaft diameter 3.17mm
- Diameter 35.8mm
- Length 50.2mm
-

©2021 Lautenbach Racing Products GmbH

- Efficiency 93%
- Voltage input 3.7 - 11.1V
- Magnet material Sintered 12.45mm
- Power 280W
- kV 3.600
- Weight 154g
- Recommended for:(only valid for 2S (7.4 V) operation) 4WD BX, TX, SC, TC; 2WD BX, TX, SC
