

VECTOR X20 BL MODIFIED - 5.5T

#50684

Vector X20 BL Modified - 5.5T

The new name of Brushless Modified is Vector X20.

The LRP Vector X20 modified brushless series is a high-end motor line developed completely from scratch. It's technology is trend-setting. LRP's R&D department had highest efficiency and maximum power in mind, when they designed these high-performance motors. The result speaks for itself: more power and higher rating at improved temperature characteristics and lowest friction. A novelty of the new technology is the dual axis balanced 12.5mm sintered worksteam rotor resulting in an absolutely precise running and increased efficiency. The larger sized ball bearings and LRP's PreciSensor™ system also contribute to the impressive performance of the LRP Vector X20 motors.

The ultra lightweight, precision machined 7075-T6 aluminium housing has optimised cut-outs for best heat absorption and lowest running temperatures also at full power output.

The LRP Vector X20 is the redefinition of a high-end component!

FEATURES

- XTEC X20 Coolmax housing - Machined 7075-T6 aluminium can with maximum cooling for lowest running temperatures
- EasySolder design - Heavy copper, 6-layer PCB for lowest resistance
- O-ring dampening - For vibration-free operation even under highest rpms
- Oversized ABEC 5 ball-bearings - Larger sized ABEC 5 bearings for maximum durability
- Laser engraved rotor size - Externally visible indication of the rotor diameter
- 5 timing inserts - Finer timing adjustments, inserts now with degree markings
- Optimised racing stack - Optimised packed stack for improved drive feel and efficiency
- Waterproof preciSensor™ system - Fully waterproof precise sensor positioning for best power, throttle feel and efficiency. Fully adjustable and replaceable
- Dynamic balanced worksteam rotor - Dual axis balanced 12.5mm sintered worksteam rotor for maximum power and highest efficiency
- World's winning motor technology

TECHNISCHE DATEN

- kV 6.100
- Power 486
- Weight 165g
-

- RPM 45.140
- Magnet material WorksTeam Sintered (12.5mm #50637)
- Voltage input 3.7 - 7.4V
- Winding Star (Multistrand Copper Winding)
- Application - Advanced 1/12
- Application - Expert 4WD BX, TC
