

#431281

HV LCG Stock Spec GRAPHENE-4 6100mAh Hardcase battery - 7.6V LiPo - 135C/65C

This was the most popular battery in our range last season for TC Stock indoor carpet racing or on tight asphalt tracks, due to its Low Internal Resistance (IR), LCG design (22.5mm height) and perfect car balance and power.

The G4 6100 (#431281) may still have the upper hand with a power advantage over the G4.1 5100 Stock Spec battery (#432277) when powerful ROAR/EFRA homologated Stock motors are used. Which battery to use will depend on track conditions.

One of the many successes of this battery was Simon Lauter's ETS Pro Stock Series Championship (21/22 and 22/23).

A clear testament to LRP's commitment to excellence!

Latest technology paired with proven High Voltage technology, 5mm gold connectors and our trademark blue seethrough hardcase.

! Tipp: Use our [Interactive Battery Search](#) to find the best battery for your application (on mobile device click on filter) Tipp !

TECHNISCHE DATEN

- Cell chemistry LiPo HV
- C-rate 135C/65C
- Length 139.0mm
- Width 47.0mm
- Height 22.5mm
- Weight 273g (+/-4%)
- Connectors 5mm
- Homologated ROAR, EFRA, BRCA
