LRP HV Ultra LCG Modified Shorty GRAPHENE-4 4000mAh Hardcase battery - 7.6V LiPo - 120C/60C

MODIFIED SHORTY battery technology in ULTRA LCG heights at LRP!

LRP MODIFIED batteries utilise a unique MODIFIED Cell Construction developed with the sole aim of achieving the highest possible capacity to deliver maximum performance in Modified classes!

The LRP MODIFIED batteries are visually identifiable with the white swoosh and the labeling „MODIFIED“.

Why did we bring the HV Ultra LCG Modified Shorty GRAPHENE-4 4000mAh Hardcase battery back in the range despite the availability of its successor [#432273](#)?

The reason is that one of our distributors requested this battery, as in his country 1/12 is run with 2S instead of the 1S with the max. length rule of 93.0mm unchanged in place.

A clear testament to LRP's commitment to excellence!

Latest technology paired with proven High Voltage technology, 5mm gold connectors and our trademark blue seethrough hardcase.

! Tipp: Use our [Interactive Battery Search](#) to find the best battery for your application (on mobile device click on filter) Tipp !

TECHNISCHE DATEN

- Cell chemistry LiPo HV
- C-rate 120C/60C
- Length 93.0mm
- Width 47.0mm
- Height 18.5mm
- Weight 158g (+/-4%)
- Connectors 5mm
- Homologated ROAR, EFRA, BRCA
