

2600 SUPER SHORTY P5 LIPO CCL HARDCASE

#430245

LRP 2600 - Super Shorty P5 - 110C/55C - 7.4V LiPo - 1/10 Competition Car Line Hardcase

The perfect battery for 1/10 2WD Offroad Modified Buggy

When it comes to Electric Offroad, the main factor for a battery is a perfect weight/power ratio. Batteries nowadays have enough power anyway for all Offroad classes, so it is much more important to have this power in a suitable package. This is the main philosophy behind the LRP LiPo Competition Car Line.

This Super Shorty battery is the lightest of all our batteries. It fits into standard 1/10th 2WD Offroad chassis and can be moved further forwards and backwards. The low weight will result in higher cornering speed and better jumping.

Type: P5

Perfect fit for: 2WD Modified

LRP Advantage: Lowest weight of all batteries, better jumping, most adjustable option.

WorksTeam tip:

Move to the front if you need more steering, move to the rear if you car has a loose rear end. Work with additional weights to reach the weight limit.

LOW WEIGHT + MORE SETUP OPTIONS = DECISIVE COMPETITIVE ADVANTAGE

FEATURES

- NEW P5 Technology
- HDS-6 - Revolutionary High Density Stacking technology
- 110C/55C LiPo power: No memory effect, extremely long lifetime
