

#65800

LRP HighPower Soldering Station

LRP releases the first ever tailor-made Soldering Station for RC applications.

You can't see it from outside but in spite of the super compact lightweight design (155x78x120mm, 1kg) it is fully packed with amazing features. With 90W it features an extreme power and together with the 400kHz electromagnetic heating element it reaches the working temperature unbelievably fast. You get perfect soldering joints on batteries, motors or speed controls with very few waiting time.

Extreme Power: 90W power rating, 400kHz electromagnetic heating element, perfect soldering joints on batteries, motors, speed controls, etc...

Easy Tip – System: The tips of the 90W handle with its comfortable rubber grip can easily be replaced in seconds without any tools.

Multifunction handle holder: Magnetic Auto Sleep / Auto Wakeup function, when handle gets placed in handle for increased tip life. Working temperature is back after a very few seconds (<10 sec). Integrated clean and safe storage for replacement tips.

Microprocessor controlled for easiest setup and super fast temperature adjustment

Robust and super compact lightweight design: 155x78x120mm / 1kg

FEATURES

- Worldwide operation 100-240VAC Input
- Fully digital for perfect adjustments
- EasyTip-system
- Blue backlit Display
- Light-weight and compact for easy transport
- Multifunction handle holder
- Mikroprozessor gesteuert: einfachste Einstellung und schnell reagierende Temperaturregelung

TECHNISCHE DATEN

- Output Power 90 Watt
- Operation temp. 80-480°C
- Sleeping temp. 50-250°C
-

- Auto sleep timer 0-250 min
