

#500904

## USB Bridge V3

The LRP USB Bridge V3 allows firmware updates for the Flow X Series, offering the flexibility to choose between different Class-Specific firmware versions to maximise performance in every class.

To complement the release of the USB Bridge V3, LRP has also launched the LRP Firmware Update Tool v2.2 which is fully compatible up to Windows 10 and MacOS Sequoia.

You can download the update tool from the service section on [www.lrp.cc](http://www.lrp.cc). Make sure to install it before using the USB Bridge V3.

In addition to the Flow X Series, the USB Bridge V3 supports firmware updates for other popular LRP ESC models, including the Flow, iX8, and Spin series.
