VTEC CPX-V22 Pre-Glued TC-Carpet Tires (4 pcs) - B-Grade

ATTENTION - B-GRADE!!!

Wheels have pressure marks on tyre surface from storage. Not suitable for competition or serious fastest laps. Perfect for hobby drivers as a training tyre or for the car park racer!

The LRP VTEC CPX-V22 pre-glued wheel is based on our extremely popular predecessor the CPX-V2 and therefore includes all the experience from previous generations of VTEC tires. Our VTEC tires stand out as they have not only been developed on the drawing board, but also been thoroughly tested by our team drivers on the race tracks worldwide.

The LRP VTEC CPX-V22 pre-glued wheel features a new insert that has a very tight production tolerance. Furthermore the air gap between the insert and the tire has been optimized resulting in a more consistent quality and overall performance. The new pre-glued wheel is using the same, proven VTEC rim and the same CPX rubber as the predecessor pre-glued wheel.

The white dish rims give an elegant race design and the proven durability you are used from our VTEC tires.

Of course, the new LRP VTEC CPX-V22 pre-glued wheel is also legal in our Challenge race series.

One set consists of 4 pcs. pre-glued wheels incl. rim, insert and tire.

- Competition tire for CARPET
- Based on our extremely popular CPX-V2 pre-glued wheel with know-how through years of experience in RC racing
- New insert with optimized Air Gap and lower variation
